

FOR IMMEDIATE RELEASE

A Founder's Day Party that is Revolutionizing the Family Brewery Business

Bushnell Craft Brewery's 1st Annual Founder's Day Party, August 2015, Celebrates those things most important this summer: Family, Live Music, Local Business, and of course, Craft Beer.

Redmond WA, July 22nd, 2015- Brought to you by [Bushnell Craft Brewery](#), the 1st Annual Founder's Day is a celebration of their grand opening in 2014, an extremely successful summer event that took place four months after the actual opening of the family owned craft brewery.

While the event has little to do with the official Founder's Day commemorating the American Revolution, the brewery is definitely revolutionizing the term family business. Three generations of Bushnell came together to create and manage everything from the craft beer, website, and menu, to the very stools and tables their patrons utilize.

Says brewery owner manager Kempton Bushnell, 23, "We opened in March with great success, but our grand opening last summer was really when Bushnell Craft Brewery was born. Since then we have tried our very best to stay true to the people, the process, and the craft."
